### The **HM 2950 SS (Stainless Steel)** – Standard Impulse Heat Sealer

The HM 2950 SS has been specifically designed for food, medical & laboratory applications - where hygiene, health & safety criteria require an easily cleaned, moisture resistant and non-corrosive sealer.

This machine has a Dual Timer with a pre-set cooling time.

Constructed from Food Grade 316 Stainless Steel, with a low voltage safety operation and IP rated components.

This machine is used in many hospitals for packing medical samples, & also can be found in many supermarkets in the fresh fish & bakery sections.

The machine comes with a spare Heater Bar Assembly attached to the back of it, to allow continuous production.

It is simple to maintain with consumable spares being easy to fit & available from stock.
