The **HM 900 S** – Security Impulse Heat Sealer

Designed as a compact sealing machine, producing an optional unique embossed code in the seal (enhancing the security of the contents).

Increased security by being able to lock the sealing bar down, so the machine becomes tamperproof as well.

They are used by Banks for packing money during storage & transport, also by Police Forces around the UK for "tamper-proof" protection of drugs evidence, exhibits, property, finger prints etc.

This machine is simple to maintain with consumable spares being easy to fit & available from stock.
